

KDC ACCEPTABLE USE AGREEMENT

Internet and Digital Technologies

Keilor Downs College believes the teaching of cyber safety and responsible online behaviour is essential in the lives of students and is best taught in partnership between home and school.

21st century learners spend an increasing amounts of time online, learning and collaborating. To gain the greatest benefit from the learning opportunities provided through an online environment, students must act in a cyber-safe manner, be respectful others and themselves.

As an **eSmart** accredited school, safe and responsible behaviour is explicitly taught at our school and parents/carers are asked to reinforce this behaviour at home.

Illegal online activities will not be tolerated and as such will be reported to the police.

Part A - School support for the safe and responsible use of digital technologies

Keilor Downs College uses the internet and digital technologies as teaching and learning tools. We see the internet and digital technologies as valuable resources, but acknowledge they must be used responsibly.

Your child has been asked to agree to use the internet and mobile technologies responsibly at school. Parents/carers should be aware that the nature of the internet is such that full protection from inappropriate content can never be guaranteed.

At Keilor Downs College we:

- have policies in place that outline the values of the school and expected behaviours when students use digital technology and the internet
- provide a filtered internet service
- provide supervision and direction in online activities and when using digital technologies for learning
- support students in developing digital literacy skills
- have a Cyber safety program at the school which is reinforced across the school
- use mobile digital technologies for educational purposes
- provide support to parents/carers to understand this agreement (e.g. language support)
- work with students to outline and reinforce expected positive behaviours.

Part B - Student Agreement

When I use a desktop computer, school managed device (SMD) or my own device (BYOD), I agree to:

- be a safe, responsible and ethical user whenever and wherever I use it

- support others by being respectful in how I communicate with them and never write or participate in online bullying (this includes forwarding messages and supporting others in harmful, inappropriate or hurtful online behaviour)
- talk to a teacher if I feel uncomfortable or unsafe online or see others participating in unsafe, inappropriate or hurtful online behaviour
- seek to understand the terms and conditions of websites and online communities and be aware that content I upload or post is my digital footprint
- protect my privacy rights and those of other students by not giving out personal details including full names, telephone numbers, addresses and images
- use the internet for educational purposes and use the equipment properly
- use online networking sites for educational purposes and only as directed by teachers
- abide by copyright procedures when using content on websites (ask permission to use images, text, audio and video and cite references where necessary)
- think critically about other users' intellectual property and how I use content posted on the internet.
- not interfere with network security, the data of another user or attempt to log into the network with a user name or password of another student
- not reveal my password to anyone except the system administrator or the teacher
- not bring or download unauthorised programs, including games, to the school or run them on school computers
- bring my device to school fully charged and ready for use in each class, when required.
- The device will only be used for educational purposes when connected to and using College services.
- In the case where a student chooses a BYOD option, technical support will only be provided to enable connectivity to the College network via the BYOD Gateway, for access to student files required for class, internet and printing services.
- It is the responsibility of the student to back up data on the private laptop regularly (eg to external hard drive or USB)
- Keilor Downs College reserves the right to restrict access and use of any private laptop used on the College campus, whether it is connected to the College network or not. Access to the College network and permission to use the private laptop on College grounds will be withdrawn as a consequence of any inappropriate use and/or security breach.

When I use my mobile phone, I agree to:

- only use my mobile for teacher-approved learning tasks
- protect the privacy of others and never post or forward private information (including photos) about another person using Short Message Service (SMS), email or online media
- only take photos and record sound or video when it is part of an approved lesson
- seek permission from individuals involved **before** taking photos, recording sound or videoing them (including teachers)
- seek (written) permission from individuals involved **before** publishing or sending photos, recorded sound or video to anyone else or to any online media
- be respectful of the privacy and safety of others in the school community

This Acceptable Use Agreement also applies during school excursions, incursions, camps and extra-curricular activities.

Improper Use and/or Access of Network and Internet at the College

Any student found to be in breach of the Acceptable Use Agreement outlined will face consequences of improper use and access of Internet technologies.

Consequences include – the removal of network access privileges; removal of internet access privileges; removal of printing privileges; and any other consequences resulting from the breach of the KDC School Wide Positive Behaviours (i.e. suspension from school).

Students with School Managed Devices (SMD) or Bringing their Own Device (BYOD)

Option 1 – School Managed Device (SMD)

- The school managed device program helps to provide a more standardized approach to the implementation of technology with the College and is KDC's preferred option. Apart from parents arranging purchase and payment arrangements with our designated supplier (Edunet), all other aspects of this program will be organized and maintained by the school.
- After working with a number of educational device providers, Keilor Downs College selected the Lenovo Yoga 11e as its mainstay machine. This device provides a balance of performance, reliability and service at a reasonable price. In 2017, we will also be offering the Lenovo Miix 510 as a higher end machine as a second option. The Miix 510 has a detachable keyboard and active pen providing a point of difference for students at competitive price point.
- These devices are bought directly from Edunet through an online portal specifically for KDC. You can buy them outright or use 12-month interest free arrangements through Zip Money. Parents can also, of course, make their own private finance agreement and purchase the device from Edunet. They will also set up an arrangement from NILS (No Interest Loan Scheme) for eligible families which is a partnership between NAB and Brotherhood of St. Lawrence. Payment for the device and warranty are compulsory but the case and insurance are optional but highly recommended and cover accidental damage and theft.
- Once purchased all servicing, insurance claims and technical support such as imaging, updating security and software etc. will be done through the technicians at KDC. These devices will have the full Edustar suite of software as well as any other software owned by KDC.

Option 2 – Bring Your Own Device

- The BYOD program allows students to bring their own computer from home. It is not managed in any way by the school. Students will be required to download a modified image for themselves. They will have access to DET software, such as Microsoft Office through an online "software centre". Anti-virus and security software must be provided and managed by the student. Access to our school network will be provided. The minimum requirements (specifications) are listed on the BYOD request form.
- It must be made clear that students will not have access to our school technicians for repairs, breakages, software issues, updates and downloads. Parents will be required to organise any repairs or insurance issues themselves.

Damage or loss of equipment

- Parents are responsible for making sure the device is covered under warranty and/or their insurance, in the event the device is lost or damaged to ensure student learning is not interrupted.
- The school must be notified if the device is damaged or lost so that a student's learning program is not interrupted whilst being replaced.

User responsibilities

Students are responsible for:

- bringing portable devices fully-charged to school every day
- ensuring the device has appropriate virus protection
- backing up data securely
- carrying their device in an appropriate protective case at all times
- adhering to this Acceptable Use Agreement when using the machine, both at home and at school, including during lunchtime or when not in the classroom.

Expectations of Keilor Downs College Students

At KDC, we promote school-wide positive behaviours and have developed a set of expectations of KDC students in a variety of settings and situations. These expectations are based on three rules:

- **Fair Learning** – working to your full potential and allowing others to work to theirs
- **Fair Treatment** – understanding the rights of all
- **Safe and Secure** – use of sensible behaviour inside and outside the classroom

We do not consider positive behaviour with digital technologies (cyber-behaviour) as an additional expectation but as a natural part of our existing framework for school-wide positive behaviour. The following table details how positive cyber-behaviour can be shown.

KDC – Positive Cyber-Behaviour Expectations of Students		
Fair Learning	Fair Treatment	Safe and Secure
<ul style="list-style-type: none">• Set high standards for learning by using your device as a tool for learning while you are at school.• Always come to class prepared with everything you need – device battery should be fully charged at home• Follow the teacher’s instructions particularly relating to “close” and “open” instructions with devices.	<ul style="list-style-type: none">• Respect and do not interfere with other people’s device• Consider others and respect their privacy when using technology• Promote positive online behaviour through using your device for the purpose intended• Support others’ online safety by reporting any inappropriate use or behaviour to a teacher	<ul style="list-style-type: none">• Keep device secure at all times – locked in lockers outside of class time or under your direct supervision.• Always treat your device with care, particularly when opening and closing and transporting it to, from and around the school• Protect your personal information by keeping your password secure.

In this agreement, the student undertakes to display the above positive behaviours.

The acceptable use agreement must be agreed to before any device can be processed and used.

KDC ACCEPTABLE USE AGREEMENT

Internet and Digital Technologies

OPTION 1 – SCHOOL MANAGED DEVICE (SMD)

Full name of student:

Year level/home group:

Student Code (eg: BAN0002):

We have read the KDC Acceptable Use Agreement and agree to abide by the expectations outlined. We understand that a breach of the agreement may result in access to technologies at KDC being suspended or revoked.

Student signature:

Parent signature:

Date:

OPTION 2 -BRING YOUR OWN DEVICE (BYOD) Request Form (2017) & KDC Acceptable Use Agreement

Parent – First Name and Surname:			
Student – First Name and Surname:			
Student Code (e.g.: BAN0002):		Year level/home group:	7 8 9 10 11 12
Private Laptop Details			
Make and Model e.g. Dell Latitude e6230 12.5			
Serial Number (Usually found on the bottom of the laptop)			
Year of manufacture:			
Security software installed (minimum Anti-Virus) •Laptops require run up to date antivirus package. Such as Microsoft Security Essentials or equivalent	Yes / No	Detail:	
Operating system (e.g.: Windows 8, Windows 10)			

Year 7 to 12 Laptop (Tick boxes are provided beside each specification for use when purchasing)
<ul style="list-style-type: none"><input type="checkbox"/> 11-inch screen Minimum<input type="checkbox"/> Intel Core i3 Processor Minimum<input type="checkbox"/> 4Gb RAM Minimum<input type="checkbox"/> 128 Gb Hard drive or 128Gb SSD minimum; 512Gb recommended (if using a large number of audio/video files an external hard drive is advisable)<input type="checkbox"/> 2 USB ports * Wi-Fi 802.11a/b/g/n compatible (wireless network connectivity) * Integrated speakers and microphone with headphone ports (standard in laptops)<input type="checkbox"/> US Keyboard with full size keys within the footprint<input type="checkbox"/> 1 x integrated pointing device eg Touchpad or Mouse<input type="checkbox"/> 6 cell (6 hour) battery– ensure battery is minimum 6 hour<input type="checkbox"/> Hard or protective shell laptop case to suit model.

We have read the KDC Acceptable Use Agreement and agree to abide by the expectations outlined. We understand that a breach of the agreement may result in access to technologies at KDC being suspended or revoked. We warrant that our device has properly licensed operating systems and software.
