

## EXTRA SCIENCE ACTIVITIES TO GET INVOLVED IN.....

During Years 7 to 10, science students at Keilor Downs College have many opportunities to participate in science-related competitions and experiences. These include:

- ✓ Big Science Competition
- ✓ Lego Mindstorms “RoboCup” Challenge
- ✓ Victoria University Science & Engineering Challenge
- ✓ “Engage in Science” at the Melbourne Museum
- ✓ Science Week
- ✓ Spotswood Science works

## Key Features

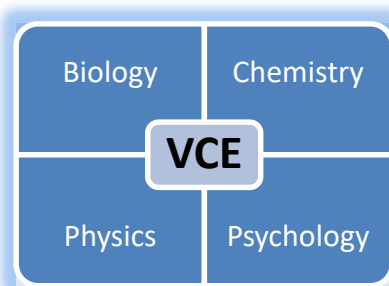

## VCE

Enrolments in VCE science subjects at the College at have been high for many years, reflecting students’ positive experiences in the junior years.

At Keilor Downs College, Year 10 students are encouraged to begin their VCE studies early. All four major VCE science subjects are available for them to study.

In 2015, all our VCE Science subjects scored above the school average. All four subjects have also consistently scored above predictions based on GAT scores and the schools SFO index.

Keilor Downs College aims to provide senior science students with extra opportunities during their science studies. These include:

- ✓ Revision lectures during October for Chemistry, Biology, Physiology & Physics
- ✓ Year 11 Biology Field Trip
- ✓ Year 11&12 Titration competition
- ✓ Psychology excursions to the Cunningham Dax Art Collection, Barwon Prison
- ✓ Year 12 Biology Gene Technology Access Centre – GTAC
- ✓ Olympiad competition
