

# KDC STUDENT ACCEPTABLE USE AGREEMENT

## Internet and Digital Technologies

Keilor Downs College believes the teaching of cybersafety and responsible online behaviour is essential in the lives of students and is best taught in partnership between home and school.

21<sup>st</sup> century learners spend an increasing amount of time online, learning and collaborating. To gain the greatest benefit from the learning opportunities provided through an online environment, students must act in a cyber-safe manner, be respectful others and themselves.

As an **eSmart** accredited school, safe and responsible behaviour is explicitly taught at our school and parents/carers are asked to reinforce this behaviour at home.

**Illegal online activities will not be tolerated and as such will be reported to the police.**

***The acceptable use agreement must be agreed to by parents/guardians through Compass.***

### **Part A - School support for the safe and responsible use of digital technologies**

Keilor Downs College uses the internet and digital technologies as teaching and learning tools. We see the internet and digital technologies as valuable resources but acknowledge they must be used responsibly.

Your child has been asked to agree to use the internet and mobile technologies responsibly at school. Parents/carers should be aware that the nature of the internet is such that full protection from inappropriate content can never be guaranteed.

At Keilor Downs College we:

- have policies in place that outline the values of the school and expected behaviours when students use digital technology and the internet
- provide a filtered internet service
- provide supervision and direction in online activities and when using digital technologies for learning
- support students in developing digital literacy skills
- have a Cyber safety program at the school which is reinforced across the school
- use mobile digital technologies for educational purposes
- provide support to parents/carers to understand this agreement (e.g. language support)
- work with students to outline and reinforce expected positive behaviours.

### **Using Social Media**

Social media is the term used for internet based tools for sharing and discussing information between users. Additional social media tools may include (although are not limited to):

- Social networking sites (e.g. Facebook, LinkedIn etc.)
- Video and photo sharing websites (e.g. Instagram, Flickr, YouTube)
- Blogs, including corporate blogs and personal blogs Micro-blogs (e.g. Twitter)
- Forums, discussion boards and groups (e.g. Google groups, Whirlpool)
- Wikis (e.g. Wikipedia)
- Vod and podcasts
- Video conferences and web conferences
- Email and instant messaging
- All other emerging electronic/digital communication applications.

At Keilor Downs College, there may be times when social media may be referenced and utilised as part of a teacher-approved learning activity. As digital communication and learning evolves, teachers may refer to social media tools to engage students into the relevant curriculum.

As with using other online media applications in teaching and learning, the highest consideration for the safety and privacy of teachers and students is exercised. To ensure the safe use of social media in relevant curriculum, teachers carefully plan their use of the platform and explicitly facilitate responsible and ethical behaviour.

## **Part B - Student Agreement**

**When I use a desktop computer, school managed device (SMD) or my own device (BYOD), I agree to:**

- be a safe, responsible and ethical user whenever and wherever I use it
- support others by being respectful in how I communicate with them and never write or participate in online bullying (this includes forwarding messages and supporting others in harmful, inappropriate or hurtful online behaviour)
- talk to a teacher if I feel uncomfortable or unsafe online or see others participating in unsafe, inappropriate or hurtful online behaviour
- seek to understand the terms and conditions of websites and online communities and be aware that content I upload or post is my digital footprint
- protect my privacy rights and those of other students by not giving out personal details including full names, telephone numbers, addresses and images
- use the internet for educational purposes and use the equipment properly
- use online networking sites for educational purposes and only as directed by teachers
- abide by copyright procedures when using content on websites (ask permission to use images, text, audio and video and cite references where necessary)
- think critically about other users' intellectual property and how I use content posted on the internet.
- not interfere with network security, the data of another user or attempt to log into the network with a user name or password of another student
- not reveal my password to anyone except the system administrator or the teacher
- not bring or download unauthorised programs, including games, to the school or run them on school computers
- bring my device to school fully charged and ready for use in each class, when required.
- The device will only be used for educational purposes when connected to and using College services.
- In the case where a student chooses a BYOD option, technical support will only be provided to enable connectivity to the College network via the BYOD Gateway, for access to student files required for class, internet and printing services.
- It is the responsibility of the student to back up data on the private laptop regularly (eg. to OneDrive, external hard drive or USB)

- Keilor Downs College reserves the right to restrict access and use of any private laptop used on the College campus, whether it is connected to the College network or not. Access to the College network and permission to use the private laptop on College grounds will be withdrawn as a consequence of any inappropriate use and/or security breach.

**When I use a KDC Learning Management System (LMS) like Compass, Office 365, Mathspace and other online apps, including Social Media, I agree to:**

- only use these apps for teacher-approved learning activities
- only use social media apps for appropriate, teacher-approved learning activities
- protect the privacy of others and never post or forward private information (including photos/videos) email or online media

**Students Safe & Effective Use of Technology**

- Keep your Compass/Teams password secure. Do not share passwords with anyone. If you think your password is known to anyone else, see IT Support to reset to a secure password.
- Check your Compass and class Teams regularly to ensure you are aware of lesson resources, homework/assessment submission dates and reminders for each subject.
- Use your class Teams to check in with your subject teachers regularly through a reaction emoji and/or reply to a post.
- Always be courteous in your communication on class Teams. Be mindful of 'quiet times' set by subject teachers and remember that Teams does not replace real-life interactions.
- Keep Teams for learning only. Avoid excessive posting and messaging that is not relevant to learning. Do not share inappropriate images/videos or share private information to ensure Teams channels are for everyone's benefit
- Be aware that class Teams, chat and KDC emails are monitored by IT Support. If there are teacher concerns about your use of class Teams and or Teams Chat (Years 8-12), the House/IT Support will investigate your Teams or email account and network privileges will be reviewed.

*This Acceptable Use Agreement also applies during **virtual remote learning periods**, school excursions, incursions, camps and extra-curricular activities.*

**Improper Use and/or Access of LMS, Network and Internet at the College**

Any student found to be in breach of the Acceptable Use Agreement outlined will face consequences of improper use and access of Internet technologies.

Consequences include – the suspension of LMS and network access privileges; removal of internet access privileges; removal of printing privileges; and any other consequences resulting from the breach of the KDC School Wide Positive Behaviours (i.e. suspension from school).

**Students with School Managed Devices (SMD) or Bringing their Own Device (BYOD)**

**Option 1 – School Managed Device (SMD)**

- The school managed device program helps to provide a more standardized approach to

the implementation of technology with the College and is KDC's preferred option. Apart from parents arranging purchase and payment arrangements with our designated supplier (Edunet), all other aspects of this program will be organized and maintained by the school.

- After working with a number of educational device providers, Keilor Downs College selected the Lenovo Yoga 11e as its mainstay machine. This device provides a balance of performance, reliability and service at a reasonable price. In 2021, we will also be offering a range of other devices at various entry points based on price and specifications.
- These devices are bought directly from Edunet through an online portal specifically for KDC. You can buy them outright or use 12-month interest free arrangements through Zip Money. Parents can also, of course, make their own private finance agreement and purchase the device from Edunet. They will also set up an arrangement from NILS (No Interest Loan Scheme) for eligible families which is a partnership between NAB and Brotherhood of St. Lawrence. Payment for the device and warranty are compulsory but the case and insurance are optional but highly recommended and cover accidental damage and theft.
- Once purchased ***all servicing, insurance claims and technical support such as imaging, updating security and software etc. will be done through the technicians at KDC. These devices will have the full Edustar suite of software as well as any other software owned by KDC.***

## Option 2 – Bring Your Own Device

- The BYOD program allows students to bring their own computer from home. It is not managed in any way by the school. Students will be required to download a modified image for themselves. They will have access to DET software, such as Microsoft Office through an online **Software Centre**.
- **Please note** that KDC's infrastructure **best supports laptops with a permanent keyboard that run on a Windows** operating system. *Chromebooks* are **not supported and will not properly function on the KDC network**. *MacBooks* with M1 chips will not run on school based apps such as Adobe Creative Cloud and will **not properly function** on the KDC network.
- **Anti-virus** and **security** software ***must be provided and managed by the student***. Access to our school network will be provided.
- The **recommended minimum BYOD requirements (laptop specifications)** are listed below

- **updated version of Windows 10 or Windows 11 (PC) or OSX (Mac) Please note: Windows 10 S, iPads and Android devices are not supported by the school**
- **8GB RAM minimum**
- **128 GB Hard drive or 128Gb SSD minimum; 512Gb recommended (if using a large number of audio/video files an external hard drive is advisable)**
- **1 usb port**
- **Wi-Fi 802.11a/b/g/n compatible (wireless network connectivity)**
- **Integrated speakers and microphone with headphone ports (standard in laptops)**
- **Full size keyboard and track/touchpad (mouse)**
- **6 cell (6 hour) battery– ensure battery is minimum 6 hour**
- **Hard or protective shell laptop case to suit model.**

- It must be made clear that **students with BYODs will not have access to our school technicians for repairs, breakages, software issues, updates and downloads.** Parents will be required to organise any repairs or insurance issues themselves.

## **Damage or loss of equipment**

- Parents are responsible for making sure the *device is covered under warranty and/or their insurance, in the event the device is lost or damaged* to ensure student learning is not interrupted.
- The *school must be notified if the device is damaged or lost* so that a student's learning program is not interrupted whilst being replaced.

## **User responsibilities**

Students are responsible for:

- bringing **portable devices fully-charged to school every day**
- ensuring the **device has appropriate virus protection**
- **backing up data securely**
- carrying their **device in an appropriate protective case** at all times
- adhering to this **Acceptable Use Agreement** when using the machine, both at home and at school, including during lunchtime or when not in the classroom.

## Expectations of Keilor Downs College Students

At KDC, we promote school-wide positive behaviours and have developed a set of expectations of KDC students in a variety of settings and situations. These expectations are based on three rules:

- **Fair Learning** – working to your full potential and allowing others to work to theirs
- **Fair Treatment** – understanding the rights of all
- **Safe and Secure** – use of sensible behaviour inside and outside the classroom

We do not consider positive behaviour with digital technologies (cyber-behaviour) as an additional expectation but as a natural part of our existing framework for school-wide positive behaviour. The following table details how positive cyber-behaviour can be shown.

<b>KDC – Positive Cyber-Behaviour Expectations of Students</b>		
<b>Fair Learning</b>	<b>Fair Treatment</b>	<b>Safe and Secure</b>
<ul style="list-style-type: none"><li>• Set high standards for learning by using your device as a tool for learning while you are at school.</li><li>• Always come to class prepared with everything you need – device battery should be fully charged at home</li><li>• Follow the teacher’s instructions particularly relating to “close” and “open” instructions with devices.</li></ul>	<ul style="list-style-type: none"><li>• Respect and do not interfere with other people’s device</li><li>• Consider others and respect their privacy when using technology</li><li>• Promote positive online behaviour through using your device for the purpose intended</li><li>• Support others’ online safety by reporting any inappropriate use or behaviour to a teacher</li></ul>	<ul style="list-style-type: none"><li>• Keep device secure at all times – locked in lockers outside of class time or under your direct supervision.</li><li>• Always treat your device with care, particularly when opening and closing and transporting it to, from and around the school</li><li>• Protect your personal information by keeping your password secure.</li></ul>

In this agreement, the student undertakes to display the above positive behaviours.

***The acceptable use agreement must be agreed to by parents/guardians through Compass.***
